Dear Sir;

This is just a sort note to describe one of the best hunts of my life, with Alfonso Fabres of HuntinSpain. The satisfaction of watching my son Max, who I started hunting at the age of eight, and now at age twenty; harvest a potential SCI record book Red Stag, cannot really be well described.

Our group consisted of myself, Jack Kamerman M.D., Max Kamerman my son; Con Kitsos M.D. and Gene Warley.

Dr. Kitsos and I both killed Gold Medal Red Stags, and my son Max killed a Red Stag with a rack of horns (counted at least ten times), that had twenty points (20); evidently it made the other two red stags look tiny.

Dr. Kitsos and Mr. Warley also killed Gold Medal Fallow Deer and two wild boar.

The HuntinSpain estate and lands are beautiful, the living accomadations superb, the food excellent, and the service "true European excellent". The entire trip and hunt was absolutely professional, a one on one or better guiding experience.

It is with great pleasure that I recommend this trip to all SCI members, and my most sincere congratulations to Mr. Alphonso Fabres of HuntinSpain.

I will be returning again next year for a bigger Red Stag and Spanish Ibex.

The cost of the hunt was \$5000.00 all inclusive.

Respectfully

Jack Kamerman M.D.
